

One PAN - One ID

Its a part of DS KYC

DS KYC - One PAN - One ID

Grow Moon Wings follows the rule of one Direct selling entity – one PAN number and vice versa. Accordingly, a policy to this effect was brought into effect in September 2020. It was applied to the new direct sellers.

However, many requests have been received from the existing direct sellers with multiple businesses centers to allow the mapping of one PAN number with multiple log-ids. In view of this, this policy is modified as under:

1. An individual direct seller can have only one PAN linked with one business center i.e. one log-id only.
2. An entity may have multiple business centers (subject to a maximum of twenty) and the PAN number of the entity can be linked with all the business centers. The entity here means any Company (Private or public limited), partnership firm, LLP but does not include proprietorship concern and HUF.
3. Accordingly, one bank account number can be attached with multiple business centers(log-ids) in the cases mentioned in Para 2 above
